### **History of the Traditional Theme School**

The traditional theme school program of the DeKalb County School District began in 1996 and serves as an educational choice for parents and students that is not restricted by previous academic performance. This program is based on high expectations, parental involvement and the interest to pursue challenging learning experiences. The DeKalb County School District has seven traditional theme schools including Edward L. Bouie, Sr., Marbut, Narvie J. Harris, Oakcliff, Robert Shaw, Wynbrooke Traditional Theme Elementary Schools, and Champion Traditional Theme Middle School located in various areas of DeKalb County, Georgia.

### **Components of the Traditional Theme School**

A traditional theme school is a school within a community that attracts elementary students from neighboring schools or at the middle school level from throughout the school district because of the unique features designed to meet the needs of students and parents. The traditional theme school is designed to offer students a comprehensive, interdisciplinary educational program in a highly structured setting. Students are active participants in a challenging program which includes home study projects and exposure to a world language. A cross-curricular instructional approach leads to more research centered assignments and hands-on projects requiring problem solving and critical thinking. Parents are a vital part of the program as they work to reinforce the instructional program and to provide support to the school.

### **Feeder Schools for Traditional Elementary Theme School**

The traditional elementary theme schools mainly receive students from schools that have space constraints. Elementary schools in the immediate community with the greatest need for relief will serve as feeder schools to the elementary theme schools. If a feeder school's enrollment decreases, the feeder school may no longer serve as a theme feeder site. This determination is made annually. The theme middle school receives students from throughout the DeKalb County School District.

### **Special Features of a Traditional Theme School**

- Required parental involvement
- Emphasis on core subjects
- High academic standards and expectations
- Exposure to a world language
- Strict conduct code
- Required uniform/strict dress code
- Emphasis on critical thinking and problem solving
- Automated reading program (Elementary Schools)
- Required summer reading and mathematics activities
- Required challenging daily homework
- Tutorial programs
- Activity-based instruction
- Agenda planners
- Interdisciplinary instruction

### **Traditional Theme School Guidelines**

- Parents and students are expected to have an enrollment commitment for one year
- Once accepted, a student must be in attendance on the first day of school to maintain his/her placement
- Parents must complete parental involvement service hours for students enrolled at a theme school. If siblings are enrolled at a theme elementary school and a theme middle school simultaneously, the parent must complete 50% of the parental involvement service hours at each school to receive credit for parental involvement service hours
- Students must wear the designated uniform for the enrolled theme school
- Continued enrollment is contingent upon compliance with the theme school regulations and requirements that include the completion of parent involvement service hours and student attendance
- Complete all school work assignments to the best of his/her ability
- Attend school regularly and arrive on time. Avoid excessive check-outs
- Leave the campus promptly at the end of the school day or after participation in an authorized school activity.
- Conduct himself/herself in a manner appropriate for school
- Students currently enrolled and in good standing may continue participation in that Theme School Program
- When a theme school placement is declined or not filled by the assigned registration date, the student must reapply for a theme school during the next open enrollment period

**As long as these guidelines are maintained the enrolled student will enjoy a successful school experience. In the event that these conditions are not met, the student will be required to attend his/her home attendance area school.**

## Overview of Selection Process

Traditional theme school applicants will be selected through an automated selection process. If there are more applicants than available seats, those students who were not selected will be placed on the waiting list. If there are fewer applicants than available seats, the DeKalb County School District shall admit all eligible applicants to the theme school. In this situation, applications submitted after the deadline will be processed for consideration. Selected and wait listed applicants will receive notification after the automated selection process is completed.

## Eligibility to Apply for a Theme School

- All DeKalb, current, private and home school students, who will enroll in prekindergarten through fifth grades and reside in the identified theme feeder elementary school attendance areas, are eligible to participate in the lottery and apply for enrollment in the designated traditional theme elementary schools. They must have completed and submitted the School Choice online application on or before the application deadline.
- All DeKalb, current, private and home school students who will enroll in grades 6, 7, and 8 and reside in the DeKalb County School District may apply for enrollment in the traditional theme middle school. They must have completed and submitted the School Choice online application on or before the application deadline.
- Siblings of students enrolled in a theme school will be eligible for the selection process if the parent completes a theme school application for the student during the open enrollment session, and if the student is eligible to enroll in the designated theme school.
- When a school is no longer a feeder school, new students from this feeder school will not be enrolled; however, siblings of returning students may apply to enroll in the designated theme school.

## School Hours and School Year

The operational times and school calendar for the traditional theme schools are generally the same as those of the school system. Optional extended day programs, activities, and tutorials may be available.

## Transportation

The most current DeKalb County transportation policy will be followed. Parents, please note that transportation for elementary theme school students will continue to be provided as currently structured. Elementary theme school students will continue to receive transportation from the neighborhood to the designated theme schools. Transportation to Champion Theme Middle School will continue as currently structured. During the current school year, middle school students will report to selected satellite pickup locations for transportation to Champion Theme Middle School.

## Siblings of Theme School Students

Siblings of currently enrolled students only in grades prekindergarten through 4, 6 and 7 may be offered enrollment in the same school if the parent applies for enrollment and seats are available. If sibling placement is not available, each sibling will be placed on the waiting list in the order in which the student is selected during the lottery. **Please note that this provision DOES NOT apply to pre-kindergarten applicants or applicants of siblings currently enrolled in grades 5 and 8 or late applicants.**

Siblings applying for the same school and grade level, who share the same birth date will be considered as simultaneous placements at the option of the parent/guardian if one sibling is selected and seats are available. It is the parent's/guardian's responsibility to indicate "Sibling currently applying for a theme school" on the application and complete the information requested for each sibling.

**Failure to indicate any type of sibling status on the application will remove this provision from all types of siblings applying for enrollment. The sibling will be placed in the lottery as a single student applying for enrollment. To receive sibling priority, the same parent must complete separate applications for all siblings on the same parent account.**

For the purposes of this provision a "sibling" includes a family member who resides in the same household for which the parent(s) has been named the legal guardian. Legal documentation must be provided.

### **Children of Full-Time Employees**

The following provisions apply only to a child whose custodial parent or legal guardian is a full-time employee of the District. These provisions do not apply to pre-K programs.

Subject to paragraphs 3 and 4 below relating to theme schools and magnet programs, a child whose custodial parent or legal guardian is a full-time employee of the District will be allowed to attend the school at which the parent or legal guardian is employed; or, if the child has an Individualized Education Program ("IEP"), at a District school that can appropriately implement the child's IEP. The Office of Student Assignment must be notified before the child is enrolled. Transportation will not be provided by the District. Payment of tuition will not be required even if the employee and child reside in another school district. This option is available only to school-based employees.

Subject to paragraphs 3 and 4 below relating to theme schools and magnet programs, a child whose custodial parent or legal guardian is a full-time employee of the District will be allowed to attend another school within the vertical feeder pattern of the school at which the parent or legal guardian is employed; or, if the child has an IEP, at a District school that can appropriately implement the child's IEP. Central office employees may attend feeder pattern schools located in the vertical feeder pattern of the employee's work site. An employee wishing to avail themselves of the opportunity described in this subparagraph shall notify the Office of Student Assignment in accordance with a timetable issued and published by the Superintendent which reasonably accounts for the District's and individual schools' planning requirements; provided, further, that such timetable shall accommodate new hires who by virtue of their hire date would be in compliance with such timetable and provide further, that the first year of implementation such timetable shall be adjusted, to the extent necessitated by the date of passage of this policy, to accommodate all eligible current employees for the 2021-22 school year. Transportation will not be provided by the District. Payment of tuition will not be required even if the employee and child reside in another school district. Students permitted hereunder to attend a feeder pattern school must abide by school and District approved standards of behavior, attendance, and punctuality in order to be allowed to remain enrolled.

Children seeking to attend a theme school under this provision must enter the lottery and comply with all other admissions procedures applicable to that school. Transportation will not be provided by the District. Payment of tuition will not be required even if the employee and child reside in another school district.

### **Theme School Application Process**

Complete an online application at <http://yourchoicedekalb.org> using a personal computer, a local library computer or by applying online at the **School Choice Programs Office**.

It is the parent/legal guardian's responsibility to submit/upload copies of all documents **with the application** to complete the application (proof of residence, birth certificate, report card, etc.) by the deadline. Your application is **NOT** considered complete until all supporting documentation is submitted to the School Choice Office by the deadline. **All submitted documentation becomes the property of the DeKalb County School District.**

Applicants not enrolled in the DeKalb County School District must provide proof of residence (current gas, electric, water bills, mortgage statement or lease agreements in the name of the parent or legal guardian). **Telephone bills, bank statements, cable bills, etc. will not be accepted as proof of residency.**

All applicants not enrolled in the DeKalb County School District and applying for pre-kindergarten through first grades must provide a certified copy of the birth certificate to complete the application process.

Applicants not enrolled in the DeKalb County School District and are currently in grades 1 - 7 must provide a copy of the most current report card to complete the application process.

### **Automated Lottery/Selection Process**

Theme School applicants will be selected through an automated selection process at the DeKalb County School District Administrative and Instructional Complex if the number of applications exceeds the feeder schools' projected number of available seats for any or all grade levels in a theme school. Applicants not selected for enrollment will be selected for the waiting list until all applicants have been placed. **In the event that the automated selection process malfunctions, the automation selection process will be redone and the initial selection or waiting list number may change upon**

## **Distribution of Seats**

### **Elementary Theme Schools**

Each school year the total number of seats per theme school, per grade level are determined prior to the lottery.

Based on the Board Policy JBCC, children in grades K - 5 of full-time school based employees will be placed when seats are available. If seats are not available for all children of staff, the applicants will be wait listed.

The number of available seats for each elementary theme school is distributed among the feeder schools based on the schools with the greatest need for relief due to space constraints or greatest enrollment. There are three pools that students will be placed in during the random lottery selection process including Theme Staff, Siblings, and At-Large. Any applicant not receiving placement will be wait listed in the order in which they were selected during the random lottery selection process. These selection guidelines do not apply to the Pre-Kindergarten program.

### **Middle Theme School**

Each school year the total number of seats per grade level are determined prior to the lottery.

Based on the Board Policy JBCC, children in grades 6 - 8 of full-time school based employees will be placed when seats are available. If seats are not available for all children of staff, the applicants will be wait listed.

Each elementary theme school population will be allotted an equal percentage of available sixth grade seats to form 50% of the theme middle school sixth grade total population. At-large sixth grade applicants will fill the other half of the available seats from their home middle school attendance areas. A 50%-50% allotment is utilized to allow theme seventh and eighth grade applicants the option to fill half of the available seats from their middle school home attendance area. At-large seventh and eighth grade applicants will fill the other half of the available seats from their home middle school attendance areas. There are four pools that students will be placed in during the lottery selection process including theme staff, siblings of currently enrolled theme students, previous theme students and at-large applicants. The available theme and at-large openings are distributed among the participating middle schools. Should an uneven number of seats become available; the remaining seats will be distributed to the sites based on the greatest need for relief due to space constraints or greatest enrollment. An automated random lottery/selection process will be conducted if the number of applications exceeds the feeder school's projected number of available seats for any or all grade levels in a theme school.

### **Waiting List**

Once all seats are filled, the remaining applicants not selected for placement during the automated selection process will be placed on a waiting list in the order in which the applicant were drawn during the automated selection process. If additional seats become available after the lottery has been conducted, the seats will be filled from applicants on the designated waiting list (per grade level, per feeder school). The waiting list will be applicable from the date of the theme schools automated random lottery/selection process until **August 31, 2022**. The waiting list will be housed in the School Choice Programs Office. Students will not be placed after **August 31, 2022**. **However, pre-kindergarten applicants on the waiting list will be placed throughout the school year as seats become available per state guidelines regarding the Georgia Pre-Kindergarten Program.**

### **Notification Process**

Notification will be sent to the applicants selected in the theme school lottery. This notification will inform the parents of the procedures required to complete the selection. If for any reason the parents/guardians fail to complete the enrollment process, the child's name will be removed from the class list. The following guidelines will apply to all students selected to attend a School Choice Program.

- ⇒ If the student does not meet the promotion requirements to enroll in the grade level for which the applicant has been selected, the student's placement will be declined. The seat will be offered to the next eligible applicant on the waiting list.
  
- ⇒ Students must be in attendance at the designated theme school on the first day of school to retain placement. Vacated seats

⇒ No new students will be admitted after **August 31, 2022**. Students not selected may reapply for the 2023- 2024 school year. **Pre-Kindergarten applicants on the waiting list will be placed throughout the year as seats become available per state guidelines regarding the Georgia Pre-Kindergarten Program.** Wait listed students will receive notification that includes their wait list number at the time of the **2022 - 2023** automated random lottery selection process. Online and paper applicants may view their wait list status by logging in to the School Choice Programs online account.

⇒ Selected applicants must accept or decline placement offered in a program by the program registration deadline.
